Experience

Emvigo technologies, Kochi ▪ Technology Consultant L3
SEPTEMBER 28, 2020 - PRESENT
Played a pivotal role in several major projects including Desiweds, Allex.ch, Contora, and the development of in-house reusable systems. My focus was on the development and implementation aspects of these projects, ensuring their successful execution and delivery.

Riolabz, Kochi ▪ PHP Developer
FEBRUARY 21, 2020 - SEPTEMBER 20, 2020
Served as a Full-Stack Developer, focusing on the development of their SaaS product, Comptool.

Protracked, Cherthala ▪ Full-Stack Developer
JUNE 20, 2018 - FEBRUARY 17, 2020
My first company, I learnt a lot about programming and the industry while working as a Developer. I contributed to most of their projects, including Oas36ty and developed various voice applications for both Alexa and Google Assistant.

Projects

DESIWEDS
DesiWeds is the vendor matching platform for the South Asian wedding industry in the U.S. Our directory of trusted wedding professionals is a leading resource for brides and grooms seeking vendors nationwide

CONTORA
Contora streamlines the entire Statement of Work (SoW) lifecycle, covering drafting, approval, requirement management, delivery, and budget control. It provides milestone tracking and cost management, optimizing project workflows.

ALLEX.CH
allex.ch is a cross-border delivery service for online shopping from Germany to Switzerland, a way for Swiss residents to shop at online retailers in Germany.

COMPTOOL
CompTool is a compensation planning and salary benchmarking software.

OAS36TY
Oas36ty is a SaaS application focused on automating office operations. It streamlines various workplace functions and subdivisions, ensuring efficient task management. The application is designed to ensure that no lead or task is overlooked, thereby enhancing workflow and productivity in organizational environments.

Skills

Throughout my career, I've worked with a diverse range of technologies, frameworks, and languages, including PHP, JavaScript, TypeScript, Rust, Laravel, Express.js, Vue.js, Angular, Ionic Framework, React.js, Google Cloud Platform, AWS, Docker, RabbitMQ, and REGEX."

Education

Mahatma Gandhi University, Kottayam   BBA

2012 - 2015

I attended as an off-campus student for a Bachelor of Business Administration Degree and completed the course with remaining backlogs.
